

Exam details

The folder list in the left-hand menu takes you to the exam overview of the exams created so far. Clicking on the name of the exam or the icon under Details takes you to the details of the exam. There you can create additional exam papers, assign or adjust a grading scale, view sample answers, and rename, move, or delete the exam. Exam papers that have already been printed cannot be downloaded again as PDF files. This prevents duplicate paper set numbers. For exams that have already been scanned, the original scans and PDF reports can be downloaded here and the completeness of the exam papers can be checked.
